We are specialists in the cosmetic and design industry

At Bunzl Rafferty Guest Amenities we drive innovation and design, developing each range within our comprehensive portfolio, comprising of over 100 ranges. Respect for harmony between humans and nature drives the core value of Bunzl Rafferty and form the rock solid foundation of our environmentally friendly ranges. As a result of these superior values, Bunzl Rafferty Guest Amenities has been approved to use the internationally recognised green and vegan labels on selected product ranges.

Bunzl Rafferty Guest Amenities Products:

- Conform to Cosmetics regulation, EU1223/2009
- Products are not tested on animals
- No child labour is used in the production of any of our products
- All products are dermatologically tested
- All products are Paraben free
- All leave-on products are Methylisothiazolinone (MIT) free

To ensure only safe and qualitative products are offered, the Cosmetic legislation was extended with the directive EU1223/2009 being introduced into law from July 2013. To relieve you from any concern, Bunzl Rafferty Guest Amenities or our European partnering manufacturers take full responsibility for all our cosmetic products. Bunzl Rafferty Guest Amenities are therefore listed as a producer on our generic ranges of guest amenities. This will give both you and your guests the guarantee that attention to detail has been paid to the development and production of a high quality safe product.

3 Key Advantages of Dove Bulk Amenities vs Mini Amenities

#1

Save Costs with Every Guest

~8ml
per shower

vs

~25ml
per shower

#2

> 60% Plastic Weight Saved

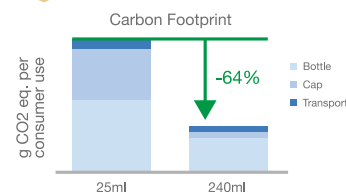

vs

#3

Reduce Carbon Footprint by **up to 64%**

- Packaging is main driver of GHG impact, whilst transport gives a minor contribution
- Bulk pump dispensers have higher product to pack ratio than 25ml mini bottles, reducing **up to 64%** of GHG emissions

Kids Guest Amenities

Dadaumpa House Kit for Bath & Care package comes in a cute playful colorable pack, colour and play! The protective & wash products contained have been tested under paediatric supervision to assure their non aggressive nature. Formulated using the best technologies, the products are rich in biological active ingredients. With Dadaumpa you can say goodbye to tears, burning eyes and to flushed dry skin thanks to tests conducted in the laboratory: tears free test (certified organic hair and body gel) patch testing, involving repeated applications on sensitive skin, and effectiveness tests aimed at confirming hydration and protection.

Zero – Refillable

Our Zero collection with a naturally kind formulation. The nature-inspired fragrance opens with an accord of lemon, aloe, fresh herbs, and marine ozone wrapped in a blooming floral bouquet of hibiscus, jasmine, rose water, and lily. Notes of birch water, sandalwood and musk display an outdoor elegance that is both light and refreshing. All you need for a luxurious bathing experience. ZERO% formulations are created intentionally. Essential oils and Vitamin E were carefully curated into a blend that perfectly completes the story of wellness and combines with olive oil.

NAME BADGES & IDENTIFICATION PRODUCTS

Why you should consider The Mighty Badge?

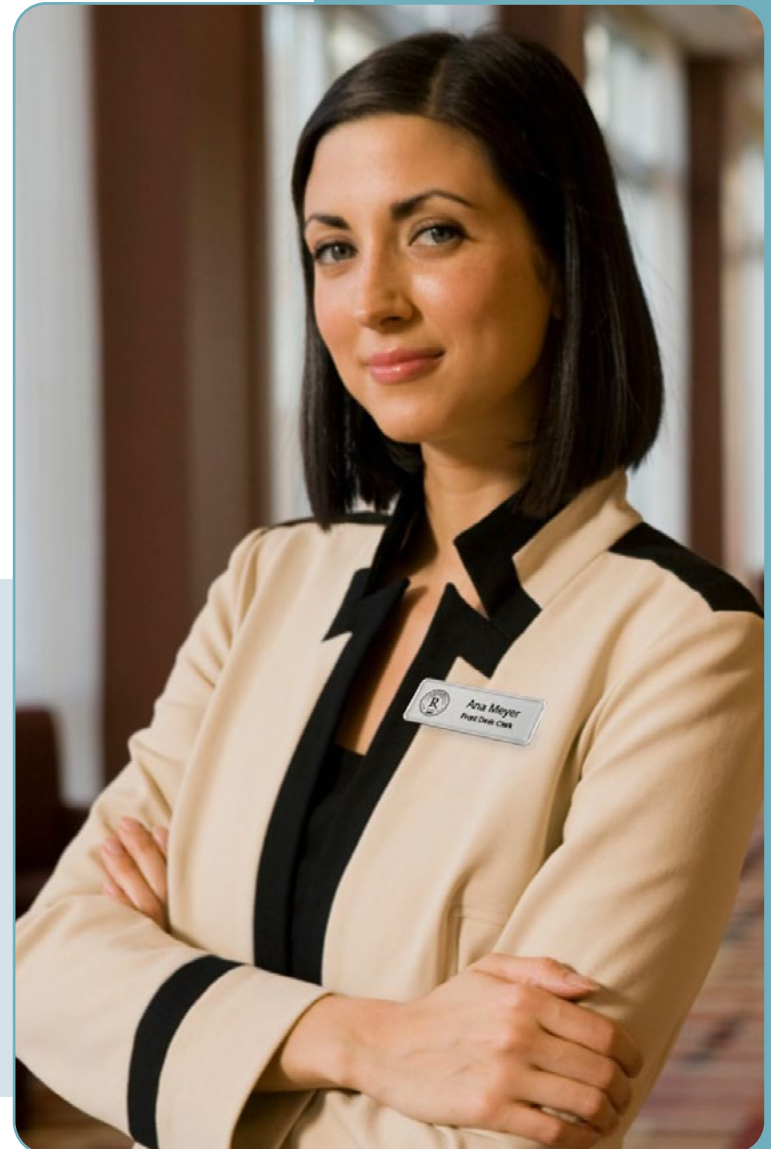

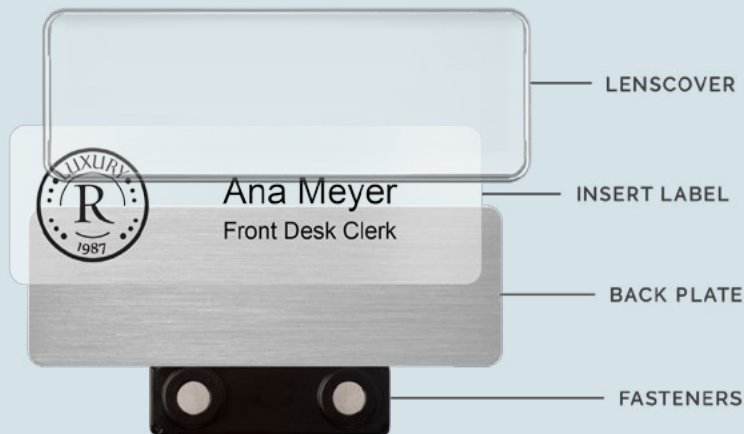

Name Badges are often an ongoing expense when ordering them ready-to-wear or with an unprotected badge face.

For single use badges each order needs to be managed and tracked whether it is a new badge for a new hire or replacement badge for name or title change, or a damaged pin fastener. For unprotected badge faces, logos and added text are subject to wear.

By ordering name badges in a kit you will have everything you need to print and re-use badges as needed. Sundries can be purchased as and when they are needed.

Benefits of the Mighty Badge System:

Bespoke ➤ Reusable ➤ Cost-Saving ➤ Unique ➤ Flexible ➤ Immediate
Convenient ➤ Brand Compliant ➤ Consistent ➤ Sustainable ➤ Durable

We saved the best for last!

➤ All you need is your computer and office printer.

Badges

A vital **visual** connection between you and your audience. The first time a customer meets a member of your staff; their **name badge** will be one of the first things they notice.

Sustainability

Sustainability

When you choose products from us, you can rest assured you are purchasing products from a company who are committed to protecting our global environment as best we can.

From environmentally friendly formulations, to highly recyclable packaging, to ensuring that our suppliers are “green” manufacturing processes, we are committed to reducing our environmental footprint while maintaining the highest levels of excellence.

The pillars of sustainability

the concept of sustainability is composed of three pillars:

Economic
Environmental
Social

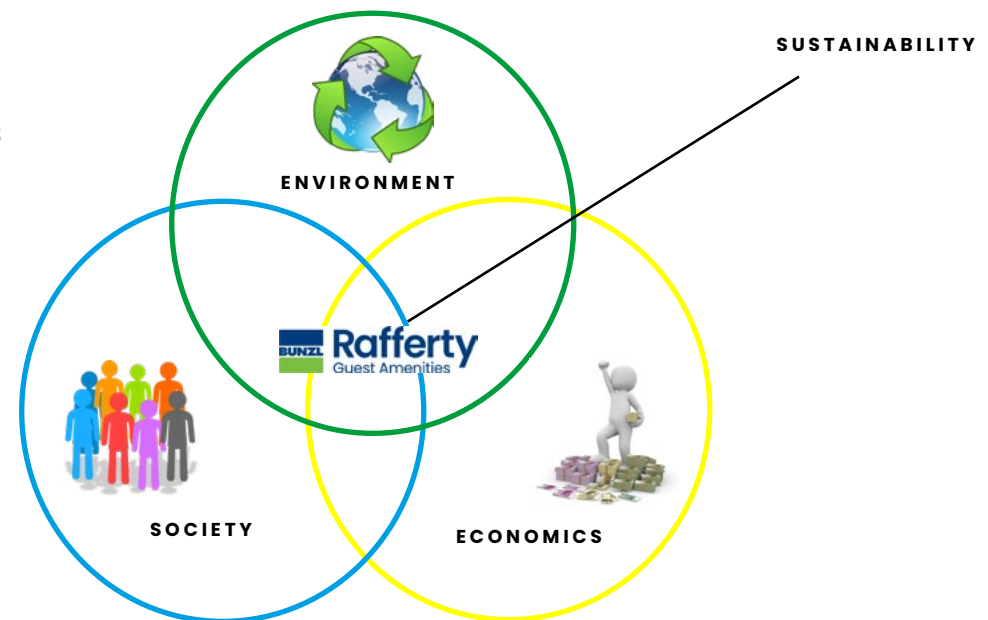

Also known informally as profits, planet, and people.

As you can see from the diagram, to be truly sustainable, we must consider all three of these factors when making business decisions, and not any one or two of them in isolation.

Opportunity for competitive advantage

Sustainability has never been more relevant or important. It is no longer seen as a ‘nice thing to do’ by businesses but is a core component of decision making.

Our goal is to be leaders in this important area. We want to share accurate, relevant information with our customers so that they can make informed, sustainable decisions.

Slipper Packaging Options

Plain paper bag

Made from kraft papers, the inner is a coated film made of PE granules which can be naturally degraded L40 x W16cm

Paper band

Made from kraft paper which is sustainable and can be degraded. Width 2/3cm and length will depend on slipper thickness

Cornstarch slipper bag

The corn based plastic alternative to traditional plastics which are petroleum based. This bag is made by a moulding machine and usually degrades in 90 days under composting standards L34.5 x W16cm

Our other textile ranges

All of our microfibre ranges are made from recycled PET plastics. The covers are 100% natural cotton. Our towels and bathrobes meet the GRS (Global Recycle Standards)

Sustainability

Eco-friendly keycards, all designed to reduce the impact your organisation has on the environment when purchasing eco-friendly products.

Recycled PVC Cards

The latest addition to our product range, these cards are ideal for organisations that require plastic cards but want to reduce plastic waste from polluting the environment and take a stand for sustainability.

KEY BENEFITS

- Eco friendly
- Cost effective
- Easy to switch
- Available in a range of technologies and personalisation

Wooden Cards

Wooden cards are a great way to not only reflect your businesses' style and class, but they also communicate your brands' commitment to reducing the use of plastic. Wooden cards are a fantastic alternative to PVC for the business who is conscious of their plastic use because, most importantly, the wood is all from FSC approved sources and is fully biodegradable.

KEY BENEFITS

- FSC approved
- Eco-Friendly
- Unique and Professional
- Available in a range of woods and personalisation

Forest Stewardship Council (FSC)

The Forest Stewardship Council (FSC) logo on a forest product is your assurance that it is made with, or contains, forest-based materials from FSC-certified forests or reclaimed sources.

The FSC label ensures that the trees that are harvested are replaced or allowed to regenerate naturally. FSC is the only wood certification scheme endorsed by the major environmental charities, including WWF, Greenpeace and The Woodland Trust.

Why should we look for FSC-certified paper/wood products?

1. Worldwide demand for paper and board
 - > The number of times a paper can be recycled is limited
 - > Wood is constantly needed as a source for the production of packaging
2. Managed forestry ensures an economically viable & constant flow of timber for the industry
 - > At the same time it maintains bio-diversity & secures the rights of forest communities & indigenous peoples
 - > The FSC logo is clearly recognisable
3. The logo confirms no illegal logging or environmentally destructive sources

Osme Organic 38ml PET bottles

Anyah 46ml PET bottles

Osme Organic 18g Soap

Paul Costelloe – Lace

This free standing 30ml squeezable pack means that no product is wasted, which is another great benefit to the customer.

Each 30ml Doypack produces 14.20g of Co2 compared to standard 30ml bottle 44.60g of Co2 produced

Which is a huge saving of 68% Co2 emissions

FieldDay – SEA

From conception to development, we worked together researching earth friendly innovations in terms of formula and packaging.

The result is a collection with a positive environmental impact.

Vegan friendly & cruelty free

No parabens & dermatologically tested

Lower carbon footprint.

One doypack uses 68% less carbon emissions than a regular 30ml bottle.

Solid shampoo, conditioners and shower bars

Innovative, eco-sustainable cosmetic products, free from plastics, in a solid format.

Shampoo and Conditioners for hair, Solid Body Wash and Hair and Body Wash with natural organic ingredients.

SOLID.O is a new eco conscious beauty experience that adds the value of a sustainable choice for personal care and a positive change for the planet to your beauty routine.
